

2021 Gas Street Legal 4 X 4 Trucks

1. Weight Class 6500 lbs trucks
2. D.O.T. stamped approved street tires only. No cuts, grooved, bar, or tractor type tread.
3. Truck must be stock appearing with all windows, hood, fenders, doors, full bed with floor or tailgate. Flatbed or homemade bed allowed, but must cover tires and be stock length. All bumpers are required to be in place.
4. Pump gas or race fuel ONLY. No alcohol, nitro or nitrous. If nitrous equipped, bottle must be removed.
5. Any type intake manifold and one single four barrel carburetor (or smaller). Air cleaner is a must. Factory fuel injection or throttle body system allowed.
6. Current registration, inspection, and insurance card required. Truck must be street legal.
7. All added weight must be secured in the truck bed. No weights allowed in the cab. No front weights or weight boxes allowed.
8. Maximum hitch height allowed can be 26" from top of hitch to level ground. Hitch hooking point is to be the furthest point to the back of the truck, (or the first thing to hit you if you would back into a wall!!!) Hitch must be a receiver type O.E.M. designed factory manufactured towing hitch, or standard factory bumper hitch. No special pulling or modified receiver hitches allowed. Must have 3 - 3 1/2 inch opening. No vertical hitch or opening, no clevises allowed.
9. Receiver hitch must be in place or truck at scale weigh-in.
10. Snowplow frames and brush guards are allowed.
11. No open exhaust permitted. Cat-back aftermarket exhaust systems are permitted. Mufflers are required and headers are allowed.
12. Drive shaft loops are recommended, but are not mandatory.
13. ABC fire extinguisher (minimum 2 1/2 lbs.) must be in cab, within the driver's reach.
14. Seat belts AND helmets must be used when pulling.
15. Bumpers must be in stock location and not in excessive weight.
16. Rear suspension may be blocked but must have 1 inch of travel at time of final weigh in.
17. No fuel cells.
